**STATE OF MAINE
STATE DEPARTMENT OF AUDIT
AUGUSTA**

July 21st, 1942

To the Inhabitants of the Town of Alfred:

In accordance with the request of your municipal officers, this department, represented by M. W. Bragdon, has completed an examination of the accounts of your town officials for the municipal year ended February 13, 1942.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of that date; subject however to a probable shrinkage in the final settlement of unpaid tax accounts.

The data obtained by us is summarized in the following:

	Comments
Exhibit A	Balance Sheet
B	Cash Receipts and Disbursements
C	1941 Valuation and Commitment
D	Statement of Departmental Operations
Schedule 1	Reconciliation of Treasurer's Cash Balance
2	Special Funds
3	Statement of Uncollected Taxes
4	Statement of Tax Liens
5	Tax Deeds
6	Analysis of Change in Net Debt
7	Notes Payable

In view of the unusual conditions now existing and the heavy taxes which must be levied by the U. S. Government during the present year, we as members of the Board of Selectmen, urge all voters to carefully examine requests for appropriations and to keep the same down to the lowest possible figure. Any Article calling for money not urgently needed at this time should be voted down. We feel that town business should be conducted with the same caution which we as private citizens would use in the conduct of our own affairs.

REPORT OF THE HEALTH NURSE

To the Citizens of the Town of Alfred, I hereby submit my annual report of the York County Health Service for the year beginning January 1, 1942 and ending December 31, 1942.

Health inspections completed in the school for the year:

Total pupils inspected	105
Pupils with defects	28
Defects found:	
Evidence of pediculosis	4
Vision	2
Teeth	24
Unclean teeth	11
Throat	6
Corrections made during year:	
Vision	2
Teeth	40
Throat	12

In April tuberculin patch testing was done to twenty-three high school pupils, and no reactors were found. Through the kindness of Principal Webster, a tuberculosis film was shown on the school projector to the pupils of all grades. The projector and a high school pupil experienced in its operation was loaned to the nurse for use in other high schools throughout the county.

During the summer months conferences were held with Dr. Richards and the teachers, and many home visits were made to contact children eligible to free tonsil and adenoids operations at the Goodall Hospital in Sanford. Three children were operated upon by Dr. Rich-

ards and calls wre made to the homes following their return from the hospital. Other home visits were made on school children to aid or advise regarding needed correction of defects found at health inspections.

In November a Health Council, composed of women representing the various organizations and activities of the town, was formed and the first meeting held at the Court House. Officers were elected and plans made for an immunization clinic to be held at the schoolhouse in January.

Guarding our health is a contribution to the War effort. To correct existing physical defects and to make available preventative measures against communicable diseases is a civic duty.

Respectfully submitted,

YORK COUNTY HEALTH SERVICE,

By Olive Twichell, R. N.,

Public Health Nurse.

REPORT OF HEALTH OFFICER

Thirty cases of measles and one case of chicken pox have been reported to me since my appointment, December 9, 1942.

Sumner Ricker was reappointed as plumbing inspector.

I wish to express my appreciation of the cooperation to all who have reported contagious diseases, and to ask that it continues. This is vitally important to maintain a high degree of health in our community.

All contagious, infectious and communicable diseases should be immediately reported when definitely diagnosed as such by a physician.

Special attention is called to:

Tuberculosis
Pneumonia
Diphtheria
Scarlet Fever
Typhoid Fever
Small Pox
Chicken Pox
Measles
Whooping Cough
Infantile Paralysis
Spinal Meningitis

PARSONS MEMORIAL LIBRARY**Alfred, Maine**

To the Board of Directors of Parsons Memorial Library:

I present the following as the 39th annual report of Parsons Memorial Library.

Although affected by a lack of funds, the work at the library has gone on to the best of my ability, as in previous years.

The gas shortage has, of course, lowered the patronage of the library, but the young people, especially the school children, have seemed to appreciate its advantages and a Travelling Library from the State Library has been very popular.

Gifts received during the year have included two volumes containing the Parsons Family Genealogy from Mr. Henry Parsons, five dollars from the New Century Club to help pay for magazine renewals, a valuable reference book entitled "Twentieth Century Authors," which is proving very useful to the High School students, from the A. A. M. Class, a dictionary stand and Christmas book for children from the Rev. David F. Atherton and several books from Mrs. Sumner Marshall, Jr., and Miss Helen Lovely.

Through the generosity of Mrs. George Hewett, we are receiving each week the New York Herald Tribune Book Review. Mrs. Howard Clark has given us Parents Magazine, and Miss Lillian Gould the World Almanac.

The A. A. M. Class has also started a fund for a new dictionary.

We are very grateful for all these gifts.

By belonging to the "Book of the Month Club," we have had most of the outstanding books of the year.

In March, the Rev. David F. Atherton gave a talk on the "Treasures of the Library," referring to the Dictionary of American Biography. This year we have purchased the Dictionary of American History, and these two sets of books make us the owners of the finest reference books published to date.

During Book Week, Mrs. Clarence Thyng kindly came over from the Sanford Library and reviewed before the six lower grades at the school auditorium, some of the best juvenile fiction of the year.

Tea was afterwards served at the Library to the Book Committee and teachers.

Will anyone owning the Town Reports for the years 1906, 1907, 1915 and 1925 please donate them to the Library, thus completing a file since the year 1881?

Following is a list of books added during the year.

Respectfully submitted,

FLORENCE R. HEWEY.

Librarian.

ANNUAL REPORT OF THE BOARD OF DIRECTORS OF PARSONS MEMORIAL LIBRARY

To the Citizens of the Town of Alfred:

The Directors of Parsons Memorial Library submit the following report for your consideration.

Under the supervision of Miss Florence Hewey, who assumed the duties of librarian this year, the library has maintained its usual standard of efficiency.

Because of change of residence, Mr. Roger Brace resigned as a member of the Board of Directors. Mr. Alfred K. Wilson was elected to fill his unexpired term.

Through the generosity of Mr. Henry Parsons, new panels were placed in the outside doors and the doors refinished. This improvement adds to the appearance of the building.

Other minor repairs have been made such as: two closets in the basement, storage for books out of circulation; shelf under librarian's desk; four extra shelves in the reading room; work on shelves in three alcoves to hold books upright. The inside has been thoroughly cleaned and the floor refinished.

Outside, the window sills and sashes have been partially painted and masonry work done on the door steps and roof. Other repairs will be made as soon as funds are available.

For additional information on the activities of the library, we refer you to the librarian's report.

Respectfully submitted,

HATTIE E. CLARK,
MARY EMERSON
MARION HEWEY,

ALFRED K. WILSON,
HERBERT B. FERNALD,
CHARLES L. STEVENS,

Directors Parsons Memorial Library.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of Alfred, I submit the annual report of schools:

According to the school census of 1942, Alfred has 126 boys and 116 girls between the ages of five and twenty-one. Of this number 131 are registered in the elementary grades. They are classified as follows: Sub-Primary, 18; Grade 1, 7; Grade 2, 20; Grade 3, 12; Grade 4, 10; Grade 5, 18; Grade 6, 16; Grade 7, 14; Grade 8, 16. For the registration of high school pupils I refer you to the report of the principal.

At the last annual town meeting the sum of \$2,500 was appropriated for the introduction of a course in Home Economics. This sum is still unexpended. We were faced with a definite lack of available, trained and experienced teachers in the subject and with the difficulty of securing proper equipment. After carefully considering the matter, it was decided to postpone the introduction of this project until a later date.

The work of the year has progressed efficiently and satisfactorily considering severe winter weather and war time demands upon the schedule.

Alfred is especially fortunate in thus far being able to retain the services of trained and experienced teachers. There has been considerable difficulty in securing a permanent high school assistant, but for the most part we have not felt, as yet, the teacher shortage.

This shortage became apparent more than a year ago, and the indications are that the situation will continue to grow worse. Maine has suffered more than many other sections of the country in this respect, because of the generally low salary schedule.

During the last year more than 1,000 Maine teachers left for military service or for better paying positions elsewhere. A recent bulletin of the Maine Teachers' Association makes the following statement regarding salaries of Maine teachers: "During the past year over one-fourth of the teachers in the state received less than \$750 a year or less than \$15 a week for the 52 weeks the teacher eats. Remember, too, that a teacher spends from two to four years in preparation, and must rather frequently attend summer school. Many business establishments pay more and require less."

The present legislature is now considering a bill to establish a minimum salary of \$720. This bill would give the towns \$190 per teaching position instead of the present \$100 in the apportionment of the State School Fund.

In regard to Maine's ability to support education, statistics show that in wealth Maine stands 23rd among the states, in appropriations for education, 39th. Moreover, state funds are declining. The years 1932-1942 show a decline of \$463,000. In other words the "per census pupil" state school aid has dropped from \$3.00 to \$1.51. To make matters worse, running expenses are unavoidably higher. This condition explains, in part, the necessity in recent years of asking for increased appropriations from the town.

Fully as serious as the teacher shortage is the matter of transportation of pupils. We are faced with the fact that transportation equipment now in use must last "for th eduration." Tires and gas do not present the only difficulty. It is, as every one knows, becoming increasingly difficult to secure repair parts. Concerning new buses it is alarmingly interesting to note that since July 1, 1942, 27 new buses have been released. The State of Maine received **one** of these.

In view of these facts, the Office of Defense Transportation has made it mandatory that all possible curtailment of school bus mileage be put into effect. It thus becomes necessary for some pupils to walk part or whole of the distance to school. We have endeavored to meet these conditions with a minimum of hardship for the children involved.

During the year the schools have been required to assume many new duties imposed by the war. The matter of rationing is but one of these. I should be neglecting an obligation, if I did not before closing, express my keen appreciation, not only to the teachers and the School Board, but to the citizens who have given of their time and effort in this and other matters.

Respectfully submitted,

MAYNARD E. WRIGHT,
Superintendent of Schools.

REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent of Schools, School Board and
Citizens of Alfred:

I herewith submit my annual report of music in the schools:

Grades 1 and 2 are showing excellent progress in correct tone production, and the beginning of reading music by syllables.

Grades 3 to 6 have just passed very satisfactory "True or False" tests in time and theory, the upper grades doing more advanced study of sharp and flat Chromatics, and marks of expression.

The Junior High group are working now on two part music with special stress on interpretation and tone placing.

Mr. Webster, though unable by reason of changed schedules, to devote as much time as formerly to the high school chorus, maintains his interest in it, and has purchased an electrical reproduction attachment to the motion picture machine, which gives very fine renditions of symphony and opera recordings. It fills a long felt want and is greatly enjoyed in regular music appreciation study, and occasional concerts in assembly for both grades and high school.

The High School is taking up the story of the opera "Carmen," but we have only the record of the "Toreador's Song" at present, as many of the opera recordings are unavailable "for the duration."

We were glad to receive a visit from Mrs. Frances B. Settle, music representative of the Silver Burdett Pub. Co., last fall, who complimented teachers and pupils on their fine work, stressing the excellent tone quality.

During these chaotic war mad days, music is needed more than ever as a stabilizer, and morale builder, and as one music educator says, "The names of Bach, Mozart, Beethoven and Brahms will be remembered long after those of Hitler, Mussolini and Hirohito are forgotten."

May I here express my sincere appreciation to you all and to all the teaching force for splendid cooperation during the entire year's work.

Respectfully submitted,

HELEN M. DOLLEY,
Music Supervisor.

February 19, 1943.

REPORT OF THE PRINCIPAL

To the Board of Education, the Superintendent of Schools and the citizens of the Town of Alfred, I submit the following report:

School opened on Monday, September 28, with an enrollment of 6 freshmen, 8 sophomores, 8 juniors, and 10 seniors. Three new subjects have been added this year: Economic Geography, to give the student a broader outlook on the rapidly changing world, Physical Fitness, to prepare both boys and girls for the strenuous life of the next few years and Civilian Defense, in preparation for home front emergencies.

The government demand for pre-induction training in high school has resulted in several drastic changes in our method of procedure. Great emphasis has been placed upon mathematics and science. With this end in view we have added several internal combustion and electric motors to our laboratory equipment. These have been cleaned and assembled by the pupils in the various science courses. A friend of the school has loaned us a splendid work bench containing a jig saw, a power grinder, and a wood turning lathe, driven by electric motor. With money obtained from the scrap drive we have purchased a standard typewriter with a large carriage, for mimeograph work, an electric turntable, and seventy-five dollars worth of hand tools for carpenter work. The students have turned enthusiastically to the task of providing themselves with a practical education. This commendable attitude should stir a responsive chord in the hearts of the citizens who are really interested in the welfare of young people.

In closing I wish to express my appreciation to the school officials and citizens who have responded so patiently and generously to my many calls for more equipment and donations of time and effort and to the teachers for their hearty cooperation during these critical times when they are called upon to perform many additional duties.

Respectfully submitted,

ARVARD V. WEBSTER,

Principal.
